CLIMENTINES

A project by and for young people, turning
dialogue into climate action

TOOLS, EXPERTISE, AND
CONNECTIONS FOR THE NEXT
GENERATION OF CLIMATE LEADERS
THROUGHOUT EUROPE.

What is CLIMentines

CLIMentines project empowers European youth to lead climate action through tools, skills, and networks, enabling them to shape solutions and policies at local, national, and European levels.

Our Objectives

-  Connect youth organizations across Europe towards climate action
-  Equip youth workers and leaders with tools for advocacy and education
-  Support the active participation of marginalized and underrepresented youth
-  Influence climate policy through participatory and deliberative democracy

Highlights from key activities

The CLIMentines Project has already delivered key tools and resources for youth empowerment:

Youth Exchange

36 young people from across Europe gathered in Athens for 5 days of deep-dive workshops, creative labs, and peer exchange on climate action and participatory democracy. Together, they co-developed project ideas and shared strategies for local impact.

CLIMentines Podcast Series

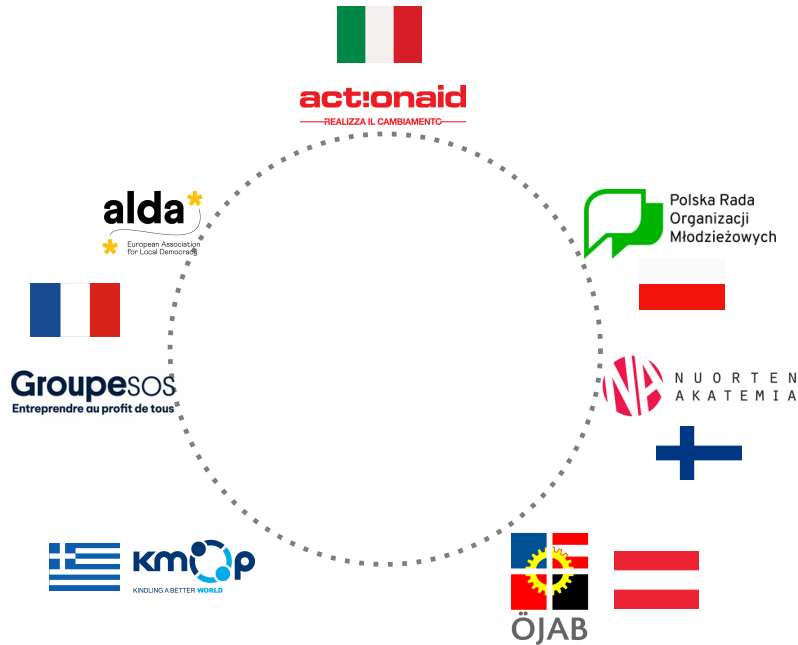

Five episodes featuring inspiring young changemakers, activists, and experts from across Europe. From grassroots organizing to digital campaigning and intergenerational dialogue, each episode brings practical ideas and emotional insights.

Local Youth Task Forces

In 6 countries, youth-led task forces have launched their own climate actions—from zero-waste campaigns in Austria to street interventions in Italy. Supported by partners, these teams turn CLIMentines tools into hands-on activism in their communities.

WHO IS INVOLVED

7 partner organizations from 6 countries are working on the CLIMentines project

WHAT ARE WE STILL DOING

Engaging initiatives and activities are currently underway to enhance youth involvement.

Policy Dialogue Events

Bridging youth voices with policymakers to influence local and European climate policies in France, Italy, Austria, Greece, Finland, Poland and Brussels

Local Task Forces

Across 6 countries, teams of youth workers and young activists driving community-based climate projects and advocacy
